

Offene Abschlussarbeit mit dem Thema:

Summarization of geo spatial models in crowdsensing and mHealth

Typ:	Bachelorarbeit	Beginn:	-
Gutachter:	Prof. Dr. Manfred Reichert	Betreuer:	Albi Dode
Projekt:	-		Raum 544
Ext. Partner:	-		albi.dode@uni-ulm.de

Kurzbeschreibung:

A comparison of existing approaches which include sensors, regions and connections between data and user. This topic aims to see how these models can be applied for tinnitus patients using smartphones and wearables.
